

WEATHERHOODS

IDEAL FOR HRV/ERV AND INLINE FAN APPLICATIONS

- Maximized amount of free air space – 37 square inches.
- Made of high density polyethylene for a durable, long life even in severe climates!
- Incorporated screens to protect against the entry of animals and large insects.
- No moving parts eliminates freezing and sticking potential.
- Hoods are easily removed for cleaning with no tools required.
- Clearly labelled hoods for exhaust and intake.
- Mounting collars and galvanized sleeve available.

Available in 5" 6" and 7" sizes
